

Mimms Museum of Technology and Art is a great place for school field trips whether you have a class of 10 or a team of 120! We are in nearby Roswell with easy access from GA 400 and there's plenty of free parking for school or charter buses.

Our exhibits cover a variety of Georgia Standards of Excellence (GSE) in Math, Science, Social Studies, and of course, Computer Science. There are also many opportunities to explore Art, Design, and Language Arts.

Tour *your way* at Mimms Museum! We have two great options for your field trips:

1. **Interactive Digital Tours** (1.5 - 2.0 hours)
  - a. Students use clues to find artifacts, answer questions, and complete missions via an app on either their own phones or our iPads.
  - b. Students work in teams of no more than four students with only one device needed.
  - c. The questions are geared toward your grade level GSE and give the students background information about the artifacts as well as guiding them throughout the entire museum.
  - d. Activity and 'mission' questions give students a chance for a little fun via selfies, video creation, and competitions within their team or against their classmates.
  - e. After all the students finish, a report is available for you, the teacher, to review showing you how they answered the questions and giving you access to all the media they created.
  - f. Volunteers and staff are on hand to talk to the students and assist them with the app.
  - g. A classroom lesson/activity can be added to your visit for a small additional charge.
2. **Traditional Guided Tours** (2 - 2.5 hours).
  - a. Your classes will be guided through one of our exhibition halls.
  - b. Staff or volunteers will lead your students while providing information about highlighted artifacts.
  - c. These tours include your choice of one of our classroom lessons/activities.

## What makes us a great school group destination:

- 4th – 12th grades – Choose between our digital tours or traditional guided tours, and consider adding on a classroom activity/lesson.
- Our museum is accessible for all - we're on one level, with curb cut access from our own free parking lot.
- Large capacity restrooms are available in our entry lobby and within the museum to handle groups quickly.
- Our staff and volunteers are there for you during your entire visit, ready to share their knowledge!

## Things to consider before you book:

- One chaperone per 10 students is required.
- Chaperones will be required to stay with their group throughout the visit.
- Lunch space can be reserved. A setup/clean up fee applies. Meals must be brought in.
- Do you have younger students? Our Tech Tales program is geared specifically for **PreK-3rd grade**. Lasting about 1-1.5 hours, it's suited for younger visitors.
